

Mobile speed enforcement and video surveillance

Fully 'E' mark approved for motorcycle use, ProVida 2000 Bike is the leading surveillance and speed enforcement system, offering unrivalled reliability and ease of use.

Packaged neatly and fitted securely to almost any motorcycle, ProVida Bike has the same rich functionality as our four-wheeled version ensuring customer satisfaction.

The system is available to all police forces, patrol officers and installers across the world, and the evidence it gains is accepted in all UK courts and an ever increasing number of overseas jurisdictions.

Features include:

- Fully approved 'time and distance' mobile speed enforcement capability
- Successfully tested for specific motorcycle conditions
- Covert and lightweight bullet camera as standard
- Specifically developed motorcycle hard drive allows up to 24 hours of recording
- Upgrade options can include remote microphones and second camera facility
- Full one year, return to base warranty and extension options available
- Can be effectively installed in motorcycle tank bags, allowing pannier space to be used for other policing equipment
- For other features of ProVida 2000 see our specific ProVida sales literature.

Quality:

Quality control is based on ISO9001 and carries the EU standard CE and E.

Approvals

ProVida 2000 respects national laws and regulations and has national & international approvals when required.
